Dear Madam:

Referring to our telephone conversation of this morning, we are booked to July 20th at which time we play the Albany State League team. Games are played on Wednesday and Saturday nights. Can you inform us as to the tentative date when you would care to play in Kingston?

We presume that according to our telephone conversation that you have written us today in regard to terms.

As I informed you, not being officially identified with the committee and writing to you in regard to this matter, it is done purely because of my interest in baseball and the desire to see your wonderful team perform.

Yours very truly,
